

Loowatt

Flush with Happiness

Waterless flush toilets and sanitation solutions
for today's events and construction sites

“The Loowatt toilets are amazing and everyone has said how brilliant they are” —Nick Brooks-Ward, H-Power

contact@loowatt.com

Waterless Flush: A Practical Marvel

Our patented core technology, the waterless flush, provides an odourless and hygienic experience and a clean bowl for every user.

Waste is captured within our compostable polymer film refills, all within a hygienic, airtight canister—making servicing a clean and simple job.

Waterless

Zero water means savings on operations and transport

Energy from Waste

Waste is fed to utility-run energy-generating systems

Chemical-Free

No biocides: Our toilets are healthy for people and planet

Great Experience

Customers and servicers alike love using our loos

Off-Grid Applicatons

No need for generators or HGV truck access

Simple Logistics

Perfect for places where vehicle access is tricky

“ A toilet experience like no other. Very impressed indeed. ”

Port Eliot Festival customer feedback

Toilet Pods

4-bay toilet pods suited for efficient transport and speedy deployment at events and construction sites

Construction

Perfect for sites where access by pump-out trucks creates operational challenges due to terrain or traffic

Tunnels

A clean and convenient toilet and servicer experience in places where chemical toilets won't work

Bespoke

Applications beyond your typical portable toileting include campsites and mobile welfare units

“

Investing in sustainability is the right thing to do for our planet, and also makes business sense.

– Michael Conway, CEO, FM Conway

”

4-Bay Pod

Flexible and robust 4-bay toilet pod for both events and construction sites.

Electric Module

Fits below bench seat. Easy to access and quick to install.

220 flushes between services. Tracks usage, and sends data to toilet servicers.

Module size (mm):
515w x 489l x 421h
Power: 35W

Pod size (m):
1.9w x 2.5l x 2.8h
Power: 140W

Loowatt Waste Management

The Loowatt System ensures that all organic waste is treated in biological systems with utilities such as Thames Water, while the refill material is sent for industrial composting.

Biogas
Converted into
electricity and heat

Liquid Fertiliser
Improving soil quality

Treatment

Processing

Peo

Loowatt customers love the closed-loop system, positive for people and for our planet.

✓ **300+ tonnes**
waste processed

✓ **3.5 mWh**
energy from waste

✓ **250,000 +**
happy customers

✓ **950k litres**
clean water saved

Smart Tech
remote monitoring
